PROJECTS

- Skill Barter** | React, Node.js, Express | [GitHub](#) | [Live](#) 2025 - 2026
Built a full-stack skill exchange platform enabling users to trade skills through a time-credit system. Implemented authentication, trust scoring, dispute resolution, and admin moderation features.
- EcoSentinel** | Python Flask, PostgreSQL, Leaflet, Chart.js | [GitHub](#) | [Live](#) 2025 - 2026
Developed a Human-Wildlife Conflict Management System for forest departments with centralized incident reporting and geospatial mapping. Implemented role-based access, risk categorization, and analytics dashboards for decision support.
- Faculty Appraisal System** | PHP, MySQL, Python Analytics | [GitHub](#) 2025 - 2026
Developed a web-based faculty appraisal system with role-based dashboards and automated evaluation workflows. Integrated AHP-based scoring, EDA, and data analytics for transparent performance assessment and ranking.

AREA OF INTEREST

Web Development | Database Management Systems | Computer Networks

ACHIEVEMENTS & ACTIVITIES

- Published and presented an IEEE conference paper on Faculty Appraisal System at ICECMSN 2025.
- Participated in a 36-hour Hackathon on Snap & Cook organized by M.Kumarasamy College of Engineering.
- Attempted GATE 2026, strengthening core computer science concepts and problem-solving skills.
- Presented the project "Coding AI" at Project Exhibition'26.
- Won State Level National Science Congress for the project "Automatic Street Light".

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Oracle University
- Human Computer Interaction (12 Weeks) – NPTEL, SWAYAM
- Mastering the Art of Prompting – IBM SkillBuild
